VOL. XIX.

OWINGSVILLE, KENTUCKY, THURSDAY, APRIL 28, 1898.

NO. 41.

Tobacco Hoes all sizes and prices at Jno. A. Ramsey & Co's.

Corn-planting will generally be later than common.

Celebrated Tiger Hay Rake. Full line.

Born, April 25th, to James Hatton and wife, near town, a son.

A full line of Walter A. Wood Tubular Steel Mowers. All sizes at Jno. A. Ramsey & Co's.

Export cattle have come through the winter in better flesh than usual.

Have you seen the Walter A. Wood Tubular Steel Mower? It is a daisy.

First vegetables will be later than usual coming to the table this year, owing to the necessarily late planting.

The only real bargains to be found in Owensville are at Mrs. Estill's.

Thomas S. Barnes, of Howard's Mill, cut off his finger while cutting stock feed in a cutting box.

Price a Walter A. Wood Tubular Steel Mower at Ramsey & Co's before you buy.

Squire John A. Daugherty and Clarence Power didn't have much luck fishing at Hies' Mill last week.

The horse J. S. Brown shows for himself; a golt by him will be valuable to his owner.

Some apple trees have a fairly good bloom, while others have none. Late cherries are blooming full.

All sizes of Vulcan Plow points at Jno. A. Ramsey & Co's.

The 8th district C. W. B. M., which includes Bath county, will meet at the Christian Church at Paris this week.

You can rely on everything that you buy from Mrs. Estill being the latest style.

Some growers report that they have tobacco plants that will be large enough to transplant in ten days.

Dr. G. W. Conner tells us that he is doing a good business with his stock, at his barn on Prickly Ash.

Clover seed sown this spring has come up and is making a wonderful growth for so early in the season.

The "Front Rank" is now the most popular Corn Drill on the market. Ramsey & Co. have them.

Several young men of town talk of enlisting for the war. There is a movement on foot to organize a company here.

Do not forget that Mrs. Estill will sell you the prettiest hat for less money than any one in town.

It is too early yet to prognosticate on the blackberry crop, but it fails so rarely that hope is buoyant and corn-bread needn't get too easy.

The "genuine Brown" is at the head of the Double Shovel Plow family. Try one.

The Christian church folks of lower State Creek are getting the lumber on the ground to build a church near Mrs. Reese's residence.

"From goods cheaper than anywhere give you a nice Ging-Calico dress for every \$5 cash purchase. Mrs. ESTILL.

The farmers generally have already turned out on grass their cattle they have been feeding for export. That is two or three weeks earlier than usual.

Brown Double Shovel plows and five-tooth cultivators are the best. Jno. A. Ramsey & Co.

The hogs that followed feeding cattle are now being marketed at about \$3.30. There has been an advance of 20 cents per hundred in the last few days.

Why not plant your corn with a Drill? You can increase the yield 25 per cent. Ramsey & Co.

It is reported that Charley McClain, of this town, son of Clark McClain, and John Freeland, of Bethel, left Monday to hunt a recruiting office to enlist in the army.

Have you seen those new Woolen Dress Goods at Mrs. Estill's? They are beautiful and the latest things out.

Some of the military attaches of the legations in Europe have been called home to take their places in the army. Lieutenant Henry A. Shaskey, of the 1st Cavalry, is the attaché.

All the new and desirable styles in Millinery at about 25 per cent. less than you can buy them elsewhere. Mrs. D. S. ESTILL.

We hear that George Garner saw a large fish while crossing State Creek at the mouth of Prickly Ash and jumped from his horse into the water and caught it. The fish weighed eight pounds.

Buy a "Front Rank" Corn Drill, a Tiger Disc Harrow, an Acme Pulverizing Harrow, and you will have more corn per acre than you have ever done in your life. Jno. A. Ramsey & Co.

Having decided to reduce my large stock of goods I will sell at cost for cash for 60 days the entire stock, which is full and complete. NEWTON JOHNSON, Grange City, Ky.

TOBACCO REPORT.—EXPRESSLY FOR THE OUTLOOK BY J. S. PHILLIPS & Co., PLANTERS WAREHOUSE.—Louisville, April 23, 1898.—We have had another week of light sales and receipts, with a very active, strong market on all grades selling below \$15, when in good or even fair condition. The smooth, heavy-bodied red sorts, that sell around \$12, have developed the most strength and sold for more money this week than they have done at any time during the year. The better grades, that are selling between \$14 and \$17, met with fair competition, and probably brought more money than they have done at any time since the early part of March. The demand is very limited for the good and fine leaf, that sold the early part of the year above \$20 per hundred. Red tips were in strong demand at prices certainly as high as they were at any time in the past few weeks. We cannot see any decided change in the prices of the colory lugs, trashes or flyings.

Common fillers and smokers in Old show a decided advance this week. Everything selling between \$5 and \$8 was from \$1 to \$1.50 per hundred higher. The sell below \$5, did not share in the advance. We cannot see any great change in the medium and good leaf. The grades falling between \$9 and \$12 have had a little more animal, but the better sorts selling above \$13 met with very limited competition.

The offerings of Dark this week were more liberal than last. The common lugs and trashes met with very little competition and sold about last week's prices. The short, nondescript leaf, selling between \$4.50 and \$6, seemed to us a few bids better. We can see no change in the price of long leaf suitable for rehandling. No really good, rich dark leaf or lugs offering.

MILITARY PLO.—The following was clipped 20 years ago from a Cincinnati paper by Sanford Doyle, of White Oak. It is a curious story.

During the last war with Great Britain, a very remarkable circumstance occurred in connection with the invasion of Canada. A company of Kentucky volunteers destined for Shelby's army, had their route changed at Harrodsburg, in Kentucky, and formed a sort of nucleus or rallying point for the military recruits of that part of Ohio country, and thus marched from Harrodsburg towards the Ohio River, having got a mile or two on their way they noticed two pieces of clothing and a hat on the ground, and then they saw a man who seemed to be in distress. They halted and the man who was in distress told them that he was a soldier and that he had been wounded and that he was looking for his comrades. They helped him and then they marched on.

At night when they encamped, the pig found a shelter near, and halted also. The next day the pig accompanied the troops as before, and thus it marched every day and halted every night with the soldiers, or near them. When they came opposite Cincinnati at which place the troops were to cross the Ohio to a ferry-boat, the pig on getting to the water's edge plunged promptly in and swam across, and then he walked on the other side till the whole cortege crossed over and then resumed its post upon one side of the moving column. Thus the animal kept up with the troops until they crossed the State of Ohio and reached Lake Erie.

On the journey, as the men grew familiar with their comrades, it became a pet, receiving a share of the ration issued to the soldiers, and despite of privations as the troops found themselves at times, no one thought of putting the knife to the throat of their fellow soldier. What they had was still shared, and if the pig fared as scantily as the rest, it still granted on, and manifested as much patriotism in its own line as the bipeds it accompanied did theirs.

At the margin of the lake, she embarked with the troops, and went as far as Bass Island. But when offered a passage over into Canada, she with stinately refused to embark a second time. Some of the men attributed her conduct to constitutional scruples, but she observed that she was contrary to the Constitution to force a militia pig over the line. She, therefore, had leave to remain.

After the campaign had closed, the troops recrossed the lake, having left some of their horses on the American side. As soon as the line was formed, to the purpose of the crossing, the pig was on the right of the line, ready to resume her march with the rest. By this time, the winter frosts had set in, and the animal suffered greatly on the homeward march. She made out, however, to reach Mayville, where the troops recrossed the Ohio river, and then she gave out and was placed in trusty hands by Governor Shelby, and finally taken to the Governor's own home, where she passed the rest of her days in ease and indolence.

There are many in Kentucky who can now attest the truth of this remarkable story.

WENT TO THE SHOW.—"Dik" Conner left Tuesday for the show at Mt. Sterling Wednesday, going by way of Rowan county. He was humming:

"She's my doney gal, A. A. She's my doney gal, I. I."

It was presumed that he would crunch bar-bar-pole candy and drink pink lemonade with that "doney gal" at the circus. He carried a bag containing two dozen turkey eggs, a quart of raw seed peanuts, and two ears of popcorn. He says he is going to have turkey with peanut sauce and garnished with popcorn next fall, and the friends that "stand in" with him will be invited to the feast.

Ramsey & Co. handle "Tiger" Harrows and Corn Drills, known as the best.

The Passing of Secretary Sherman. [Courier-Journal.] No more pathetic incident has transpired in connection with the present outbreak of war than the enforced retirement of John Sherman from participation in public affairs. He is one of the last of the statesmen that the civil war brought forth, and the greatest surviving. One of the ablest of all the Secretaries of the Treasury since Hamilton, it was certainly his fortune to do the most important work. The resumption of specie payments and the funding of the war debt are achievements sufficient to entitle him to a place among the chosen few who have the genius of constructive statesmanship. That he made mistakes, and very serious ones at times, is not to be doubted. One can not help thinking that if he had always followed his convictions on the silver question instead of consulting party policy, our monetary system would never have been subjected to the intense strains from which it has had to suffer. A believer in the gold standard, he has, however, clung to the use of greenbacks, and he has always thought the national banking system a perfect one, though condemned by more scientific financiers. Still, these are minor faults, and his other errors may have been forced upon him by the exigencies of party politics. Perhaps it seemed best to him to compromise and put off the evil day as in the Silver Purchase act. We realize now that this was a mistake, but he may have judged the temper of the times best, and the bill may have saved us from a free coinage law. For the good he did he at any rate deserves credit, and that was a great deal more than falls to the average service even of eminent men.

The position which Mr. Sherman took with regard to silver legislation, so much in contrast with his boldness when he declared that the only way to resume specie payments was to resume, is a key to all his public acts. An intense partisan and an adroit and powerful politician, he sometimes realized and sometimes reversed Goldsmith's characterization of Burke: "Who, born for the universe narrowed his mind, And to party gave up what was meant for mankind."

This might be said of him with truth, but not: "And too fond of the right to pursue the expedient."

More the pity that it was so. He never hesitated to gain a party advantage, and he never spared a foe. In a State whose politicians are the most active and malignant in the Union he was easily a leader for forty years. He was ever ready to fight, and probably because of his pugnacity, while he always sat on the right hand, he was never at the head of the table. The colorless Hayes and the brilliant but weak Garfield passed him on the way to the presidency, stronger man though he was. He might have made a great Chief Magistrate, but he did not lose the nomination altogether because of the bribery alleged by him against his rivals.

That such a long, vigorous and altogether useful life should be brought virtually to a close by mental decay at a period when lesser statesmen suffer no loss of mental power is impressively pathetic. If the art of government be the greatest to which man can devote himself, John Sherman has served his generation well.
